### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

## **DETAILED ACTION**

### ***Claim Objections***

Claims 3-10 objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim should refer to other claims in the alternative only. See MPEP § 608.01(n). Accordingly, the claims have not been further treated on the merits.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 2 and 11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claims contain numerous examples of indefinite language, including "other highly precision oriented techniques", "such as", "or various kinds of instruments", "in a minimum configuration" (what is meant by "minimum configuration"?), "sense of reality" in claims 1 and 11, and "or additionally" in claim 2. Also, because the claims appear to have been translated from a foreign document there are numerous examples of unclear language, such as "for purposes of varying a degree of transparency" in claim 2. The claims contain numerous examples of functional language, which describes an intended function or purpose of an apparatus rather than clearly reciting the apparatus. As an example, "for indicating image information from a

right-side CCD camera...and image information from a left side camera" in claim 1 makes it unclear whether right side and left side camera are being positively recited as part of the claimed invention. Also, claim language in parentheses is generally considered to be indefinite, because it is unclear whether the language in parentheses is part of the claimed invention. Appropriate corrections are required.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Gregorio, Hon, Truxa, Lampotang, Toly, Levine, Bevirt, Bailey, Aumann, Jacobus and Gould disclose various surgical simulation systems.
